

ZERO F

Safe & sustainable PFAS alternatives

The **ZeroF project** aims to **develop safe and sustainable coating alternatives** that remove harming per- and polyfluoroalkyl substances (PFAS) from the **packaging and upholstery industries**. The project, co-funded by the European Union and the Swiss State Secretariat for Education, Research and Innovation, is driven by the urgent need to address the **alarming persistence of PFAS in the environment and their negative impact on human health**.

12 partners, 9 countries, 0 PFAS
